## Individualized Service for You & Your Customers

Dear Valued Customer,

As we enter a new year and the COVID-19 vaccine becomes readily available, your pharmacy will be more important than ever. Now more than ever, people crave the personal touch of services that an independent pharmacy offers. In a year full of separation, heartache, loss, and uncertainty, there's comfort in knowing your community pharmacist knows your health needs and can meet those needs with a personal connection that makes a difference.

As an independent pharmacist, you can provide for the unique needs and health challenges of the people in your community in a way that chain stores cannot. You can assure them they will receive the COVID-19 vaccination in the order set out by the CDC, especially your customers in those high-risk groups such as diabetics. By reassuring your customers with knowledgeable information, you are letting them know you care about their every need.

At Ixthus Medical Supply, we care about the needs of independent pharmacies nationwide. Our goal is to work closely with your team to provide the supplies you need on time and at a great price. We are grateful for the opportunity to serve both you and your customers.

In Stock, On Time.  
No Surprises.

For decades, we've been the preferred wholesale provider of diabetic supplies to independent pharmacies nationwide. We've offered these products up to 40% less than your Drug Wholesaler so that you can bring

back local and competitive pricing to your customers.

The needs of people with diabetes require careful attention. Individuals look to you to provide the test strips, syringes, socks, and other supplies that help them manage their diabetes confidently. We know how important it is for you to stay fully stocked, so you always have the items your customers' request.

Ixthus Medical Supply has provided independent pharmacies with the same quality service they have come to expect since 1968.

How can we serve you?

*"Be joyful in hope, patient in affliction, faithful in prayer."*

Romans 12:12

## Product Highlights

## Pen Needles

With over 30 million Americans living with diabetes, we know it's important for your pharmacy to have supplies readily available so you can best support your customers as they manage their diabetes.

The Pen Needles below offer high reimbursements compared to Drug Wholesaler house-brands. Run a test claim to see how you can make more money!
